

Declaration about Kerafol products and their manufacturing

Kerafol Keramische Folien GmbH is a DIN ISO 9001 and DIN ISO 14001 certified company.

Kerafol's products do not contain prohibited substances or substances restricted by REACH or RoHS.

To our current state of knowledge our products do not contain conflict minerals originated from the Democratic Republic of the Congo or neighbouring countries (Dodd-Frank-Act).

The raw materials used during the manufacturing of our products may contain impurities, which are inevitable and conditional of their manufacturing.

For confidentiality reasons we cannot provide information about the ingredients of our products, their composition and their proportion. Due to the above-mentioned your request is not applicable to us. Please understand, that due to a large number of inquiries we cannot answer particular questionnaires. However we hope, that this document contains the information you requested.
